Profile

Aspiring Full Stack Developer with a focus on Python and Django. Proficient in Python programming with good understanding of web development components. Basic knowledge in Data Science and Machine Learning. Strong problem-solving ability and time management skills. Dedicated, hardworking, and committed to becoming a dependable and valuable team member.

Education

Eranad Knowledge City Technical Campus Manjeri 2020-2024
Bachelor of Technology in Computer Science and Engineering
CGPA: 8.34 Manjeri

HMYHSS MANJERI 2017 to 2019
Higher Secondary Education
Percentage: 93 Manjeri

Internships

Data Science and Machine Learning, Data Science Intern Dataspark, Kozhikode
September 2023

- Grasped foundational concepts in data science, such as data manipulation, statistical analysis, and exploratory data visualization.
- Applied various data visualization techniques, such as scatter plots, line charts, bar graphs, histograms, and box plots, using Matplotlib and Seaborn.

Courses

Python For Data Science, NPTEL Certification Jan 2023-Feb 2023

- Learned how to use Python for data science.
- Gained knowledge of NumPy for numerical computations and array manipulation, and Pandas for managing and analyzing structured data through DataFrames.

Python Django Full Stack Development, Certification Course (Ongoing) Aug 2024- Current

- Gained proficiency in Python Programming

Technical Skills

Languages: C, JavaScript, Python, HTML, CSS, Java

Software: Visual Studio, Jupyter, Spyder, PyCharm

Technologies: NumPy, Pandas, Tkinter, Matplotlib, Django

Projects

Online Public Service 2023

- Developed a website for online government public services on a regional level

An AI-Based Voice-Enabled Chatbot for Banks 2023 to 2024

- Developed an AI-driven assistant system for banking operations.
- Used Python and MySQL
